HOME MEANS NEVADA, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2019

The following discussion and analysis of Home Means Nevada, Inc. (the Organization) provides an overview of the Organization's financial activities for the year ended June 30, 2019. As management of the Organization, we encourage readers to consider the information presented here in conjunction with the financial statements and related notes to the financial statements.

The financial statements have been prepared in accordance with Governmental Accounting Standards Board (GASB) Codification. The financial statements presented focus on the financial condition of the Organization and the results of operations and cash flows of the Organization as a whole.

Financial Highlights

- The Organization's net position totals \$2,634 while assets total \$135,535 and consists primarily of cash and cash equivalents, held for Foreclosure Mediation Program.
- Program-specific revenues total \$528,271 with direct program expenses totaling \$149,877.

Overview of the Financial Statements

There are three financial statements presented: the statement of net position; the statement of revenues, expenses, and change in net position; and the statement of cash flows. They are prepared using the accrual basis of accounting.

The statement of net position presents information on all of the Organization's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as useful indicators of whether the financial position of the Organization is improving or deteriorating.

The statement of revenues, expenses, and change in net position presents information showing how the Organization's net position changed during the most recent fiscal year. Changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

The statement of cash flows provides relevant information about the cash receipts and cash payments during the period.

The notes to the financial statements provide additional information that is essential to a full understanding of the information provided in the financial statements and should be read with the financial statements.

The Organization as a Whole

One important question asked about the Organization's finances is: "Is the Organization better or worse off as a result of the year's activities?" The information in the accompanying financial statements helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is the basis of accounting used by most private-sector companies.

The changes in net position (the difference between total assets and total liabilities) over time is one indicator of whether the Organization's financial health is improving or deteriorating. However, consideration should be given to other non-financial factors in making an assessment of the Organization's health, such as, the ongoing demonstrated success of the programs in operations, changes in the economy, and changes in legislation that affect the program(s) administered by the Organization.

The total program-specific revenues recognized are determined by actual expenses incurred under that program. Increases in revenues and expenses are primarily due to an increase in program-related activity for FMP during the year ended June 30, 2019 when compared to the year ended June 30, 2018.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities

Home Means Nevada, Inc. (the Organization), a component unit of the Nevada Department of Business and Industry, is a nonprofit corporation. The Organization was established for the execution of homeowner assistance to address the challenges and needs of distressed homeowners. Currently, the Organization's mission is to implement and monitor the Nevada State Foreclosure Mediation Program, as established with the passage of Senate Bill 490 of the 2017 Legislative Session. Senate Bill 490 continued the Nevada State Foreclosure Mediation Program but transferred responsibility for its implementation from the Nevada Supreme Courts to the Nevada District Courts and the Organization.

Individuals who have received a notice of default on owner-occupied housing will now petition the District Court when they want to participate in a mediation. The District Court will assign a mediator who will conduct the mediation. The Organization will provide a supporting role in the Foreclosure Mediation Program and work closely with the District Courts and mediators to ensure a successful program.

Income Tax Status

Home Means Nevada, Inc. is a nonprofit organization as described in Section 501(c)(3) of the Internal Revenue Code (IRC) and is generally exempt from income taxes on related income pursuant to the appropriate section of the IRC. The Organization did not conduct any unrelated business activities and, consequently, has no provision for federal or state taxes in the accompanying financials statements.

Use of Estimates

Timely preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts, some of which may require revision in future periods.

Basis of Accounting

The Organization is considered to be a governmental not-for-profit because of its relationship with the State of Nevada. The financial statements of the Organization have been prepared in accordance with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB) Codification.

The financial statements of the Organization have been prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. The statement of net position and the statement of revenues, expenses, and change in net position display information about the Organization.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial Statement Presentation

The Organization classifies net position, revenues, gains, and other support and expenses based on the existence or absence of donor-imposed restrictions. Accordingly, net position of the Organization and changes therein are classified and reported as follows:

Restricted-nonexpendable - Net position subject to donor-imposed stipulations that must be maintained permanently by the Organization.

Restricted-expendable - Net position subject to donor-imposed stipulations that will be transferred to the Organization for direct use by a designated program.

Unrestricted - Net position not subject to donor-imposed stipulations or received with restrictions that were satisfied in the same period.

Net investment in capital assets – Net position consisting of capital assets, net of accumulated depreciation, reduced by the outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.

Cash and Equivalents

For purposes of the statement of cash flows, the Organization considers all unrestricted highly-liquid investments with an initial maturity of three months or less to be cash equivalents.

Capital Assets

The Organization capitalizes all expenditures for property and equipment in excess of \$5,000 and with a useful life of greater than one year. Property and equipment are carried at cost or, if donated, at the approximate fair value at the date of donation. These assets are depreciated over useful lives of 3-5 years.

Refundable Advance

Refundable advance consists of funds directed by the passage of Senate Bill 490 to be advanced to the Organization from the State of Nevada’s Foreclosure Mediation Program Account. The advance is recognized as program revenue by the Organization as qualified expenditures are made (see “Nature of Activities” above).

Restricted Activity

The Organization’s policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.
